The Girls' Middle School

Imagine a school where each day is alive with learning, creativity, and a spirit of adventure. The Girls' Middle School is committed to progressive education and innovative programming, meeting the needs of a wide range of middle school girls. GMS educates girls during a pivotal time in their lives. Our project-based curriculum encourages creativity, problem solving, and independent thought. Attention to girls' emotional and social growth develops self-knowledge and confidence as well as teamwork and leadership skills. The Girls' Middle School encourages girls to spread their wings, take risks, and be self-reliant.

GMS celebrates different perspectives coming together in community. We are committed to broadening the diversity, in all dimensions, of our faculty and staff.

6th and 7th Grade Computer Science Teacher

What we look for in a computer science teacher:

- Bachelor's degree in math, science, computer science or related field – advanced degree and teaching experience a plus!
- Teaching that inspires enthusiasm, confidence, and deep understanding in computer science
- Commitment to experiential, project-based learning, narrative assessment, and other progressive pedagogies
- Eagerness to collaborate closely with teaching teams
- Delight in teaching middle school girls!

Computer Science at GMS

Computer Science at GMS introduces students to the breadth and beauty of computing and algorithms. The curriculum provides a broad overview of deep concepts, with an emphasis on the skills of programming and computational thinking.

Students engage in authentic computer science problems in a creative and supportive environment. Through hands-on experiences, cross-disciplinary projects, and a variety of learning methods, students learn to work through problems and express themselves using code.

CS Topics include: Programming in Scratch, Ink, and Python; robotics using Lego EV3 Mindstorms; website design with HTML & CSS; and responsible computer and Internet use.

Teaching at GMS

- Joyful, inclusive, and respectful community of students and adults
- Passionate, mission-driven, and highly collaborative faculty
- Autonomy in creating curriculum and learning experiences
- Opportunities to create multi-faceted, interdisciplinary projects
- Participation in field trips and outdoor education overnights
- Advisory role
- Professional development strongly encouraged and supported
